

## **BERMUDA introducing an innovative pond kit for the family to interact and learn about nature while having fun!**

### **MY FIRST POND KIT**

Pond dipping fun for all the family

- ▼ Create a small, natural wildlife pond
- ▼ Helps children to learn about nature
- ▼ Identify pond life, insects and bugs

### **WHAT IS MY FIRST POND KIT?**

Bermuda is showcasing its new product, My First Pond Kit at The Garden Press Event 2022. Children of all ages love being outdoors, exploring and learning about wildlife. My First Pond Kit helps them interact with nature by creating their very own small, natural wildlife pond.

The Bermuda My First Pond Kit includes some of the key products needed to get them started including; PVC pond liner, a fountain pump, water conditioner, barley straw, a pond net, magnifying glass and a pond dipping guide book to help identify all the minibeasts that could start to live in their pond.

My First Pond Kit is the first product in what will be a new range of pond kits expertly put together to provide the family with fun and interaction whilst learning about nature.

Many national retailers have already expressed an enormous amount of interest and My First Pond Kit will be available for the public to purchase around Easter time.

### **MORE ABOUT WHO WE ARE**

Bermuda was purchased in late 2017 by Evolution Aqua Ltd. Today thanks to their superb expertise and extensive product range, Bermuda have managed in this very short time to re-establish itself as the must stock water gardening brand.

They have already identified many original and exciting product lines for 2022 so the future for Bermuda has never been stronger. For more details visit [www.bermudawatergardens.com](http://www.bermudawatergardens.com)
